## Web Developer

Ambitious web developer brings problem-solving approach and powerful technology skills to web development process.

Communicates well with development team to ascertain web marketing needs and design interfaces to accommodate specifications. Brings background in communication, coding, artistic media, and SEO to accomplish tasks.

## Work History

### 2021-06 - 2021-07 Junior Web Developer (remote)

*918Software, Tulsa, OK*

During my full-time school, I worked some part-time contract work at 918software. I worked on:

- Web Development tasks on Realtor MLS website for Canlas Brothers, SF (currently in beta).
- Completed assigned task cards in Trello, which included creating layout and navigation using React Routing, React-component creation for dialog building, and style implementation using Material-UI and CSS.
- Interacted with other developers in daily stand-ups, reviewing and analyzing coding, project requirements, and team processes.
- Collaborated with Lead Developer, representing web team to establish project goals, projections, and milestones.
- Demonstrated respect, friendliness, and willingness to help wherever needed

### 1996-11 - 2021-01 Team Leader

*Whole Foods Market, Littleton, Colorado*

- Built strong relationships with customers through positive attitude and attentive response.
- Mentored and guided employees to foster proper completion of assigned duties.
- Modeled exceptional customer service and
